

*When you leave town, your dog should get a stimulating and fun-filled vacation too! We want your pets to feel safe, secure, and comfortable while under our care. Pup City provides night lights, white noise, and TV for our guests. However, we totally get that no one likes the feeling of being away from home, so please feel free to bring any special toys, blankets, etc. that will make your pet feel more relaxed while at our facility. While some other facilities may keep your dog confined most of the day, or make you pay extra for limited exercise sessions, Pup City overnight guests receive the same love and activity as our regular doggy daycare crowd. Pets who stay overnight with us receive a free full day of daycare!*
